I am writing to express my profound disgust at what is viewed by me as and end run around the legislature in trying to use the Supreme Court of the State of Michigan to violate the rights of individuals such as myself who have legitimate case against the Asbestos industry. The Supreme Court is supposed to interpret law not pass new legislation and I for one am sick and tired of people trying to screw the working class out their constitutional right to a trial by a jury of their peers in cases such as mine for asbestosis. I will be keeping a close watch on this you can be sure. Also I believe that it is a conflict of interest when you have two members of the Supreme court who were once employed by the law firm of Dickinson Wright who filed this petition that is before the Supreme court. I think it is in the best intrest of all concerned parties that this petition be denied.
